DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: the claims are presented in means-plus-function format, and as per *In re Donaldson*, 16 F.3d 1189, 29 USPQ2d 1845 (Fed. Cir. 1994) and 35 U.S.C. 112, 6th paragraph, limitations expressed as such "shall be construed to cover the corresponding structure, material, or acts described in the specification and equivalents thereof. In the instant case, independent claim 1 recites "means for attaching said mirror assembly" and "means for attaching the trailer coupler guidepost". These means-for recitations limit the present invention to include structure (detailed on page 11 of the specification) that is neither anticipated nor made obvious by the prior art, in particular when combined with a mirror base having two support legs pivotally connected thereto and a guidepost comprising a rod attached to a trailer drawbar. The above recitation, combined with the rest of the structure in the independent claim, clearly defines over the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Asher (GB Patent No. 2,161,769), Osgood (U.S. Patent No. 6,213,608), Alger (U.S.

Art Unit: 3611

Patent Application Publication No. 2003/0047909), and Koestler (U.S. Patent Application Publication No. 2003/0209880), disclose trailer connection assemblies having either mirrors or guideposts to facilitate coupling.
